CAREER PROFILE

Petrochemical Engineering graduate from Kwame Nkrumah University of Science and Technology (KNUST), with a strong passion for learning and acquiring skills across all sectors. Proven ability to collaborate effectively within diverse, multi-discipline engineering teams, ensuring seamless coordination and efficient data management.

EXPERIENCE

MARCH 2024 – PRESENT

Stocks and Quality Control Officer, Quantum LPG Logistics Limited (QLLL), Tema, Accra

Inventory Management

- Conducting daily inventory reconciliations for all Bulk Distribution Companies (BDCs), ensuring alignment between physical stock measurements and database records (ERP-Odoo, ERDMS-NPA portal, ICUMS).
- Calculating variances between physical and book stocks, analysing discrepancies, and providing clear explanations and actionable insights.
- Utilising ERP systems (Odoo) to manage inventory checks, generate loading documents, and maintain accurate tracking for petroleum product dispatches.

Quality Control and Assurance

- Executing routine tank drainage before and after product receipt from vessels, ensuring product purity and compliance with established regulatory standards.
- Performing comprehensive stock and quality analyses upon LPG vessel product receipt, using standardised quality checklists.
- Coordinating third-party sample analyses to validate product specifications.

Operational Coordination and Compliance

- Acting as Loading Master during LPG vessel discharge operations, collaborating closely with vessel chiefs, agents, and independent surveyors to ensure efficient and compliant product receipt.
- Serving as primary liaison with regulatory authorities, auditors and BDC representatives, ensuring clear communication and alignment with operational requirements.
- Engaging with internal accounting and audit teams to maintain transparency, accuracy and compliance across stock management activities.
- Facilitating daily coordination with Operations and Safety departments to uphold operational integrity and adherence to safety protocols.

Reporting, Documentation and Process Improvement

- Preparing detailed month-end stock statements in collaboration with regulatory bodies (NPA, Customs), internal accounts and audit teams.
- Generating monthly stock position reports for all collaborating BDCs and complete Material Balance reports submitted to the National Petroleum Authority.
- Participating in annual NPA compliance audits, including discussions around operational procedures and regulatory adherence.
- Reviewing, updating and enhancing Standard Operating Procedures to reflect best practices, regulatory changes and efficiency improvements.

NOVEMBER 2022 – SEPTEMBER 2023

Operations Officer (National Service), Bulk Oil Storage and Transportation (BOST), Akosombo Depot

- Conducting BRV tank dipping to measure and monitor petroleum levels accurately, and BRV product measurement for accurate quantity assessment.
- Performing petroleum quality analysis to ensure compliance with industry standards.
- Managing operational tank and pipeline setup for efficient discharging, and monitoring pipelines for safe transportation.
- Maintaining stock accounting records and entering BRV receipts into the ERP system and NPA portal.
- Conducting daily inspections of safety-critical equipment, assisting with permit preparation, and leading safety talks to promote a safety-conscious culture.
- Performing strainer changes and administering maintenance inspection checklists to address equipment issues promptly.

OCTOBER 2021 – DECEMBER 2021

X-Ray Lab Technician (Industrial Attachment), St. Anthony's Catholic Hospital, Dzodze

- Digital X-ray software management and image printing.
- Use of the Health Administration Management System (HAMS).
- Inventory requests and updates.

EDUCATION

OCTOBER 2018 – NOVEMBER 2022

BSc. Petrochemical Engineering, KNUST, Kumasi, Ghana

- NSBE member; member of the APCES editorial committee.

SEPTEMBER 2014 – JUNE 2017

General Science, Dzodze-Penyi Senior High School, Dzodze, Ghana

- President, National Science and Maths Club, DZOSEC, 2017; NSMQ 2017 contestant; member of GUNSA.

SKILLS

- Operations management
- Environment, Health and Safety (EHS)
- Stock reconciliation and custody transfer
- ERP systems (Odoo), NPA portal, ICUMS
- Communication and teamwork
- Microsoft Office suite
- Software development with AI tooling
- Simple designs with Rhino and Photoshop
